

# Travel Well

TAKE THE STRESS OUT OF TRAVEL AND KEEP YOUR COOL WITH OUR PICKS FOR CHIC-ON-THE-GO GETAWAYS

BY LORI HEISS

## SOLE SURVIVOR

When you're traveling, comfort is king. But as everyone knows, sensible shoes usually don't score highly in the fashion stakes. With these stylish foldable flats from **Yosi Samra** there's no need to sacrifice style for comfort while running between terminals

on your next trip. Made of high quality leather or fun embellished fabrics, simply fold them up and pop them in your bag. Your feet will thank you!

## AIRPLANE MODE

It's easy to forget the little things when you're on the go, but **Pinch Provisions** has created a whole range of products to help you have just what you need wherever you are. Their **Minimergency Kits** are great for everyday use, but for travel we love their **Airplane Mode** kit (\$26). The cool metallic bag is packed full of travel lifesavers like an eye mask, earbuds, lotions and wrinkle remover spray. They've thought of pretty much everything so you won't have to!

## A WRINKLE IN TIME

Despite your best efforts at folding everything "just so," your clothes inevitably look like they've been slept in once they're unpacked at your destination. Avoid looking like you've just rolled out of bed with fashions from **ExOfficio**, a company dedicated to creating travel-ready clothing for men and women. With items that are wrinkle resistant, reversible or convertible, they even have a range of insect repellent clothes. For wrinkle-free style, we particularly like their **Wanderlux Stripe Salama** dress (\$31.99, pictured). Made of soft moss jersey, it has a two-position tie allowing you to create different looks and even features a hidden security zip pocket on right big enough to fit your passport.

## ENERGY BOOST

Getting away from it all doesn't need to mean you don't want to stay in contact with friends and family back home. Keeping your phone charged has never been easier or more stylish than with **Kyte & Key's Cabelt**, an iPhone charge-and-sync cable hidden within a braided leather bracelet. Available in a variety of colors and finishes.
